

ATTESTATION OF SUITABILITY AND COMPATIBILITY

according to CEI EN ISO/IEC 17050-1 and -2

PSP S.r.l., manufacturer and distributor of the systems called "PEGASUS" and "AQUARIUS", for which Bureau Veritas, recognized certification body, issued the certificates of conformity nr. 900/002 to EN 15266 and nr. 9001/001 to EN ISO 10380,

declares and warrants

that its CSST "PEGASUS" and "AQUARIUS" tubing systems, consisting of components such as pliable corrugated tubes, fittings, apparatus, accessories, and equipment for combustible gases and hydro-thermo-sanitary plants are designed and manufactured in accordance with the applicable technical standards and allow for proper installation in compliance with the current legislation;

refers

to the European legislation and other relevant technical installation (e.g. EN 1775) and product standards which expressly provide for the possibility of also using components produced/manufactured by different manufacturers if declared compatible and/or suitable and/or specified by the system manufacturer;

attests

under its own responsibility and for safety and functionality purposes, also on the basis of repeated inspections and rigorous laboratory tests, the suitability and compatibility with its "PEGASUS" and "AQUARIUS" systems of components or systems, including those from other manufacturers (see tables below), in compliance with current legislation and all applicable installation and product standards.

GAS INSTALLATIONS	PEGASUS system by PSP			
	DN 12	DN 15	DN 20	DN 25
EMIFLEX (component tube or fitting or gasket of EMIFIX/EMISSET system)	DN 12	DN 15	-	-
EUROTIS (component tube or fitting or gasket of EUROGW/EUROGAS system)	DN 12	DN 15	DN 20	DN 25
MARAL (component tube or fitting or gasket of SICURFLEX-CSST-GAS system)	DN 12	DN 15	DN 20	-

HYDRO-THERMO-SANITARY INSTALLATIONS	AQUARIUS system by PSP								
	DN 10	DN 12	DN12X	DN 15	DN 20	DN 25	DN 32	DN 40	DN 50
EMIFLEX (component tube or fitting or gasket of EMIWATER/EMISSET system)	-	DN 12	-	DN 15	DN 20	-	-	-	-
EUROTIS (component tube or fitting or gasket of EUROWATER system)	DN 10	DN 12 AISI316 L	DN 12 AISI304	DN 15	DN 20	DN 25	DN 32	DN 40	DN 50
MARAL (component tube or fitting or gasket of SICURFLEX-ACQUA system)	-	-	DN 12	DN 15	DN 20	DN 25	-	-	-

Warranty: for the validity of the legal warranty, the systems must maintain unaltered their original characteristics of functionality and safety, even when using components (such as tubes, fittings, accessories or similar elements) from other manufacturers: such use is permitted provided that the aforementioned components have been previously verified as suitable and compatible with the PSP system, and such checks must be carried out by the system manufacturer, who assumes responsibility for them.

In compliance with the above conditions, the use of components from other manufacturers is fully legitimate and does not entail any negative consequences for the rights of professionals and/or end users.

This use therefore does not affect the validity of the legal warranty on PSP systems nor the conformity of the systems to best practice, provided that the components used have been recognized and declared as suitable and compatible by PSP, which has performed the necessary checks and, consequently, assumes the full and sole responsibility for them as per the tables above.

Consequently, any communication that states or implies the loss of the legal warranty if components from manufacturers other than the PSP system are used, is incorrect and has no legal basis and is to be considered misleading and deceptive, as well as contrary to the principles of fair competition.

Milan, on 2nd February 2026
